

SIKELETON REALM

February 23

Captain,

Pardon the interruption... but it appears you have discovered a new planet. I've prepared the following Scan Digest:

POPULATION: **20^M HOMOPLE**

SOCIETY: **AGROPAX PRISON MONARCHY**

LEADER: **BISON KRAAD VII**

ECONOMY: **YARN-BARTERING**

CULTURE: **TINY TOTEMS**

What should I do with it?

Send Vessel:

- Trickery

- Tribute

- Trepan

Send Comms:

- Bossy

- Upset

- Sleeping

TIP:

If you decide to begin a Planetary Trepan on a newly discovered planet, you'll destroy up to 60% of its Cultural Resources. Trickery will allow you to begin an Idol Siphon, which can recover 80% of a primitive planet's cultural resources. Beware, some cultural resources can cause Disgust among your crew.

The Lovers

One night in the middle of the night, two lovers embraced. They loved each other and their love was strong. This night was occurring after a long and awesome romantic dinner which had occurred earlier at a fancy Italian restaurant. The lovers had ordered pastas and red wine with breadsticks. There were candles at the table and the lighting was romantic and low. The lovers laughed when they ate. Now it was night and they were kissing in bed. They kissed and loved each other, looking into each other's eyes and kissing while they laughed. The lovers decided to make love. It was graphic love-making and x-rated. After love making, the lovers felt great. They smiled and felt very good being with each other, loving and smiling.

When the morning came, the lovers decided to kiss and be romantic still. They were loving their romantic styles and they were in love. They ate at the Italian restaurant the next day also.

That next night they also made love, kissed, and enjoyed being in love in a romantic style. They are still in love now and love to be lovers! Congrats to all lovers!

SPRINGBALL

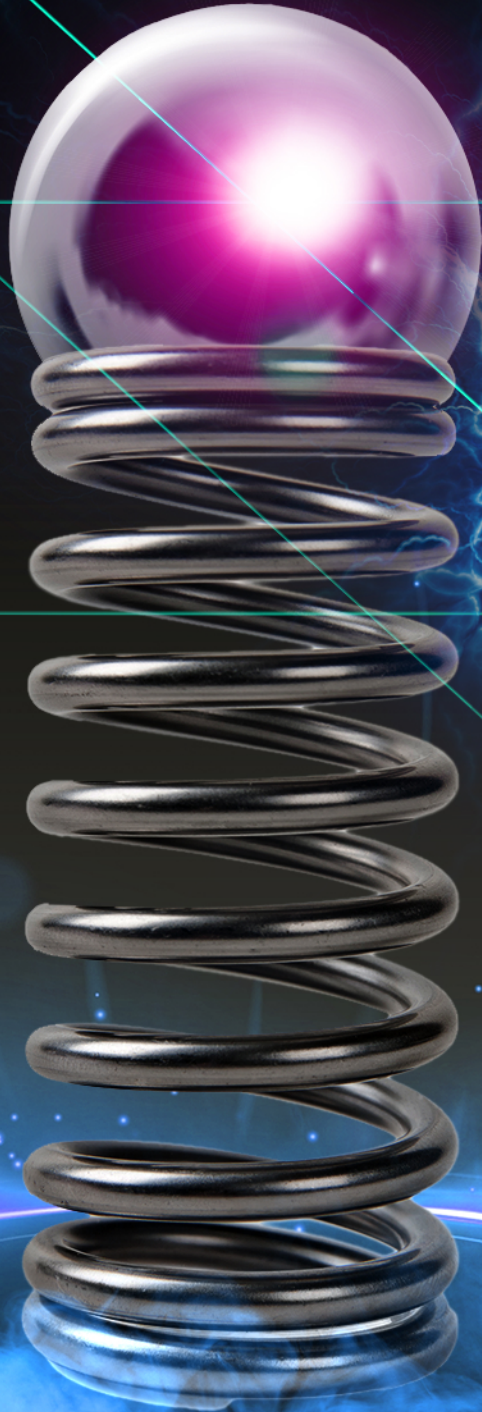

I N F I N I T E ∞ E N E R G Y

PATENT PENDING

**FUTURE?
NOW?
YEAH.**

Revolutionary technology always seems simple on the surface, but the greatest of them all are simple to the core. SpringBall Infinite Energy is a new system created engineers Sam Wagstaff and Doug Bleichner who boast twin degrees in Materials science and condensed matter physics. The idea is simple: harness the power of the cosmos. The very force that keeps our feet on the ground could be powering our cars, vehicles, buses, motorbikes, and more. The only limit? Uh, yeah -- that would be your imagination. A ball sits on a spring, and the ball is so heavy that it squish the spring, and then the spring get hot and make power. Join us as we bring about an energy revolution that will engulf the entire globe: a single SpringBall system can power 6,000 dirt bikes. Now all we need is your support.

**CAN WE
COUNT
ON YOU?**

Come With Me Into My Home!

My Home

Please meet me at 35345 Jacer Lane Porsonville, GR and come with me into my home. We will "tour" my home. My home features several rooms. The rooms serve different purposes. I sleep in various areas of the home, cook, and use the bathroom. It might not be much, but it's "my home."

Kitchen

The Kitchen is where I cook and where I eat.

Garage

The Garage is where I store my vehicle and other items.

Living Room

The Living Room is where I hang out. The Living Room is where I hang out with friends.

Bathroom

The Bathroom is where I use the Bathroom and clean my body.

Bedroom

The Bedroom is where I sleep and enjoy games.

Meet me in my yard at 3:00pm on any Monday and we will tour my home.
