BIG TANK = MORE SODA

The man on the right side of this image is measured at 5 foot 9 inches. That means two things, 1. The man measuring him is very short, and 2. The brand new Soda Tank, Premium Soda reservoir from SodaSupplyWorks is absolutely massive. Soda reservoirs have never been so big as they are now. If you need to store Soda, you NEED a Soda Tank, Premium Soda reservoir from SodaSupplyWorks, simple as.

With J.T. Bleichner

Markus

Hey J.T., awesome to be here with you, I'll get straight into it, can you drop the details on your recent weight gain? What's your secret for putting on lbs? I'd also love to hear about how your Teddy Toy saved your life, what was that all about?

J.T.

Hey Markus. My secret to weight gain is that I eat 9,000 calories a day. I go to New China Buffet Macon every single day in Macon Georgia. My Teddy Toy saved me from choking by reminding me to eat slower. Thanks goodbye.

Markus

Awesome thanks J.T. have an awesome day.

J.T.

Markus

Cerified King Fact

YOU COULD DO IT **RIGHT!** PROBLEM: SOLUTION:

I have "developed" yellow Lesions on my *Shallow Bone Parts* (Hip, Wrist, Nuckles.) and they will not fade or heal with treatment.

RIGHT:

A sample image of my left hand, with Lesions included at *Thin Skin Regions*. I took this picture with my point and shoot digital camera one day ago. It is Very Current.

HERE IS THE ADVICE:

Avoid old business-type men. There is always a small little bit of cunk between their fingers. **YOU'LL GET SICK AND ILL AND LESIONS FROM IT!**

"**My Lesions**" were caused by the Prant Dogs. You know the ones. They just squeal about everywhere in the streets of Newnan.

There ARE muscle groups that you should not be working out!

- 1) Skin Folds. Stop this one now.
- 2) Blue eyes. If you exercise these then you are falling for the lies that they Peddle.
- 3) The Moose Clave. You may not know that you are flexing this one! Watch out.

(1) AVOID!
Skin Folds

(2) AVOID!
Blue eyes

(3) AVOID!
The Moose Clave

AND WHAT IF "that don't" WORK FOR YOU?

Perhaps you have a "Weird" Body or nature???
Maybe your Moose Clave is already TOO STRONG?
Well.....

The Heal-em-Up® by Capiary™ for Knee Lesions (Kneesions) is inserted directly in the skin above the patella, to thicken it and prevent future Lesions. A similar method is employed for the rest of the other *Shallow Bone Parts or Zones*.

NOTE:

There are temporary side effects, including Powerful "Lesion-Likes" which weep and Sting. They are expected to fade with time, and leave a *beautiful* dress meat above the bone below!

If you Suffer in any way from Skin Shallowness and Resulting Open Weeping Sores, then Consider investing in the Heal-em-Up® by Capiary™ for Knee Lesions (Kneesions). Also offered for Nuckles, Hip Honks, & Wriststs.
